DELIVERY SERVICES OVERVIEW

Senior Delivery Leadership for Complex Projects

SERVICES OVERVIEW

HOW CONFI SUPPORTS DELIVERY

Confi provides senior delivery leadership across complex projects, helping organisations establish clarity, maintain control, and recover momentum where required.

Whilst Confi offers a defined set of delivery services, engagements are shaped around the needs of the organisation and the realities of the work, focusing on accountable leadership and practical outcomes rather than pre-packaged solutions.

HOW CONFI OPERATES

- **HANDS-ON SENIOR DELIVERY LEADERSHIP.**
Confi provides experienced, hands-on delivery leadership rather than advisory oversight. We take clear ownership of outcomes, work directly with teams and stakeholders, and remain accountable for progress, decisions, and delivery under pressure.
- **PRAGMATIC, OUTCOME-FOCUSED ENGAGEMENT.**
We focus on what materially improves delivery. Engagements are shaped around real constraints, risks, and priorities, avoiding theory, over-engineering, or unnecessary process. Decisions are practical, proportionate, and aligned to the outcome required.
- **DELIVERY SETUP, EXECUTION, ASSURANCE, AND ACCELERATION.**
Confi supports programmes across the full delivery lifecycle. From mobilisation and governance setup, through active execution and assurance, to recovery or acceleration where required, we apply structure and control appropriate to the stage and risk profile.

CORE FOCUS AREAS

P3 MANAGEMENT

Senior leadership of complex projects and programmes, establishing clear governance, ownership, prioritisation, and delivery control from the outset.

PROGRAMME ASSURANCE

Independent, senior oversight of live delivery to surface risk early, maintain honest and accurate reporting, and support confident, informed sponsor decision-making.

DELIVERY RECOVERY & ACCELERATION

Stabilising and refocusing delivery under pressure by addressing root causes, resetting priorities, and accelerating progress through disciplined, hands-on leadership.

SUBSCRIPTION SERVICES

DELIVERY ASSURANCE SUBSCRIPTION

Ongoing senior assurance providing independent challenge, early risk visibility, and continuity of oversight across live delivery, without the overhead of a full-time role.

FRACTIONAL PROJECT DIRECTOR

Part-time senior delivery leadership providing direction, escalation management, and decision support across critical initiatives, where experienced oversight is needed but full-time leadership is not.

WIDER CAPABILITY

● SERVICE MANAGEMENT

Supporting live services through change and transition into business-as-usual, maintaining continuity, control, and operational confidence.

● CLOUD TRANSFORMATION

Senior delivery leadership for cloud-enabled change, ensuring appropriate governance, risk control, and alignment with operational readiness.

● EXIT & TRANSITION MANAGEMENT

Managing supplier exits and service transitions to protect continuity, reduce risk, and maintain stakeholder confidence.

● P3 GOVERNANCE

Designing pragmatic governance structures that enable clear accountability, effective decision-making, and controlled delivery.

● BUSINESS CHANGE & COMMUNICATIONS

Supporting adoption alongside delivery, ensuring stakeholders understand what is changing, when, and why.

COLLABORATION MODEL

● **CONFI LEADS DELIVERY, ASSURANCE, & RECOVERY ENGAGEMENTS.**

Confi takes a lead role where clarity, control, and senior ownership are required, whether stabilising delivery, providing independent assurance, or recovering programmes under pressure.

● **CLEAR OWNERSHIP AND ACCOUNTABILITY RETAINED THROUGHOUT.**

Accountability is explicit and sustained from start to finish. Roles, decision rights, and escalation paths are clear, ensuring delivery responsibility never becomes diluted or ambiguous.

● **SPECIALIST CAPABILITY INTRODUCED WHERE IT ADDS VALUE.**

Where additional expertise is required, specialist capability is introduced in a targeted and controlled way, aligned to the delivery objective rather than resourcing for its own sake.

● **OUTCOMES PRIORITISED OVER RESOURCING VOLUME.**

Engagements are shaped around outcomes, not headcount. The focus remains on progress, risk reduction, and delivery confidence, not the size or visibility of the team.

WAYS TO ENGAGE

- **INTERIM OR CONTRACT DELIVERY LEADERSHIP.**
Providing senior delivery leadership on an interim or contract basis, taking clear ownership of delivery, stabilising programmes, and leading teams through complex or high-risk phases.
- **FIXED-SCOPE DELIVERY OR ASSURANCE ENGAGEMENTS.**
Targeted, fixed-scope engagements focused on defined outcomes, such as mobilisation, recovery, assurance, or decision support, with clear boundaries, deliverables, and accountability.
- **ADVISORY AND SPONSOR SUPPORT.**
Direct support to sponsors and senior leaders, providing experienced challenge, decision support, and delivery insight at critical points in the lifecycle.
- **SUBSCRIPTION-BASED SENIOR OVERSIGHT.**
Ongoing senior oversight delivered through a subscription model, providing continuity, independent challenge, and early risk visibility without the need for full-time leadership.
